ECED 4800 | Special Topics Course (3 credits) | Winter Term 2 (Jan 9 - Apr 13, 2023)

Land and Young Learners: Early Childhood Education Curriculum Outdoors

This course will address practical and critical considerations for facilitating early childhood education curriculum outdoors. Through regularly engaging with outdoor environments, readings, peers, and other course materials, students will practice pedagogies of listening, collaborative dialogue, critical reflection, and pedagogical narration in relation to outdoor ECE learning with children in the early years. Students will investigate histories and ongoing contexts in relation to their specific early learning locations.
